

Pre-Calculus 10

Teacher Bryan Onstad (bonstad@sd40.bc.ca)

This course is designed to provide students with the mathematical understanding and critical-thinking skills identified for entry into postsecondary programs that require the study of theoretical calculus.

Grading:

There are 6 tests in the course. Only a teacher (or invigilator) has this password (different from your password), and those tests must be done at an approved educational institution.

Email bonstad@sd40.bc.ca if you are not sure where to go or how to continue.

There are 6 chapters:

1. Real Numbers (16.67%)
2. Polynomials and Factoring (16.67%)
3. Rational Expressions and Equations (16.67%)
4. Relations and Linear Functions (16.67%)
5. Coordinate Geometry (16.67%)
6. Measurement and Trigonometry (16.67%)

There is a mandatory provincial exam. Please contact your school about writing it. You must complete this course, before writing.

This course is a virtual course on the Blackboard System run by [VirtualSchoolBC](#) .
